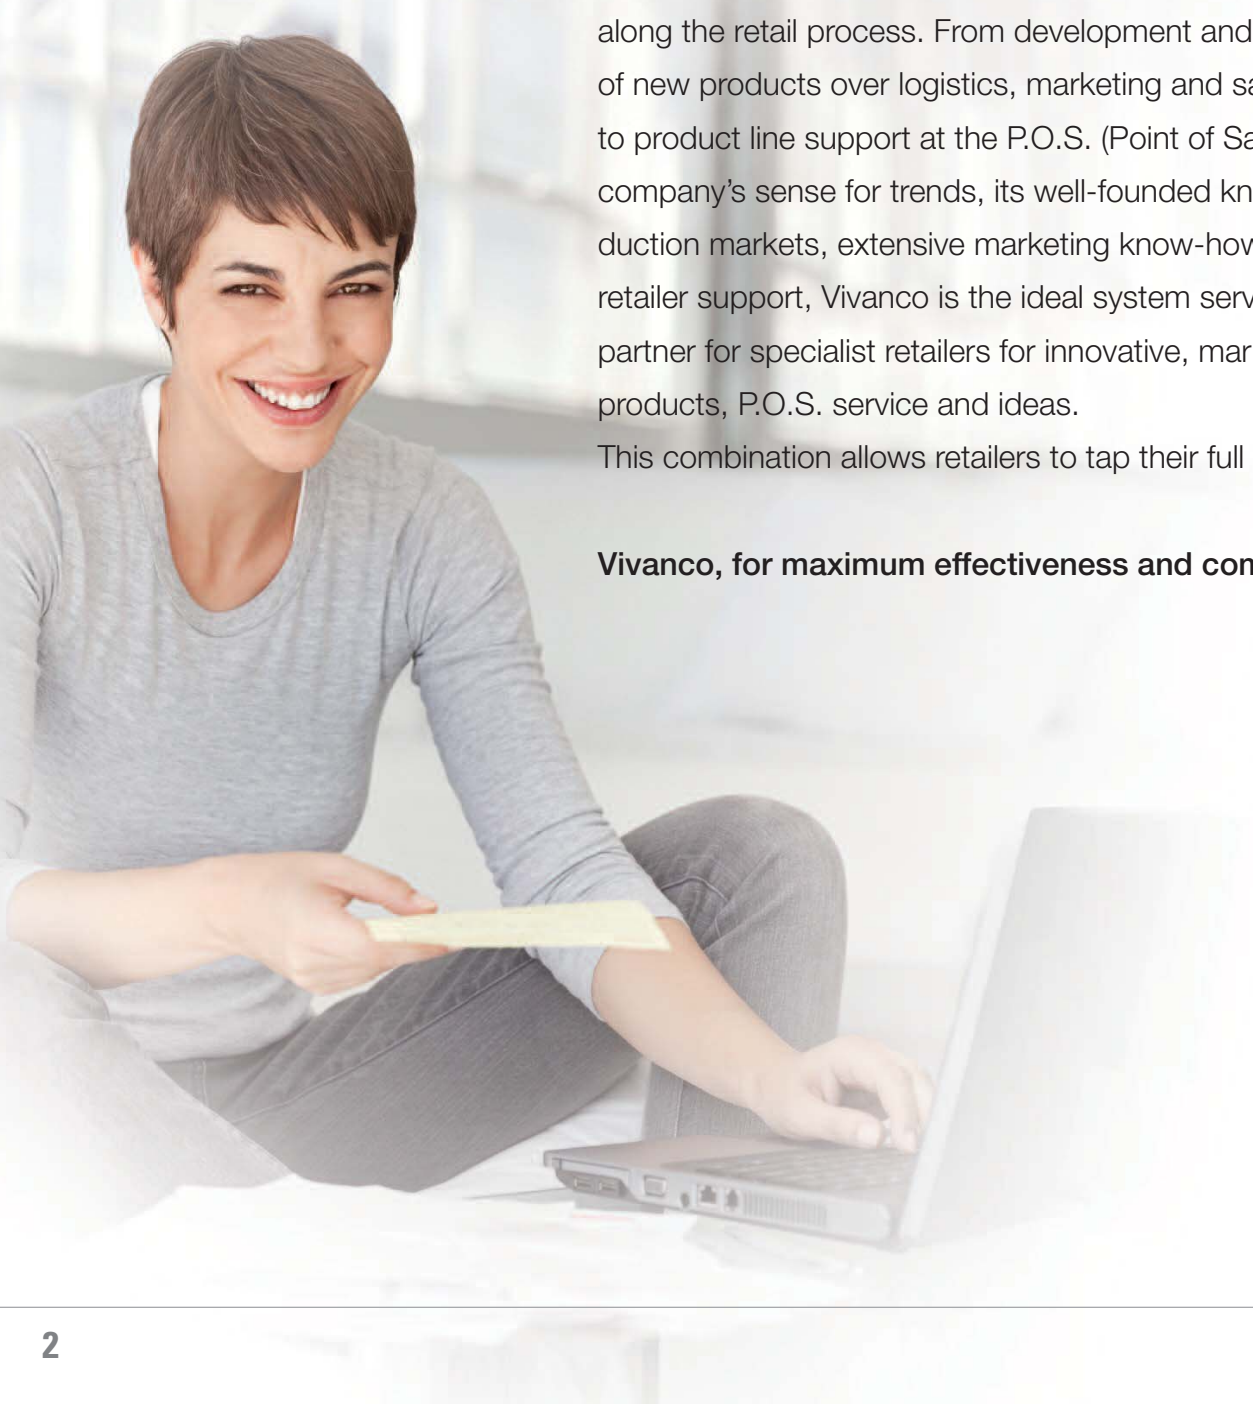
VIVANCO

INTELLIGENT SOLUTIONS

Consumer Electronics 2011

INTELLIGENT SOLUTIONS



Vivanco offers its retail partners the ideal combination of high-quality products, efficient service, reliable partnership and attractive conditions. Vivanco is one of the leading providers for equipment and connecting accessories – in terms of both the width and the depth of its product lines.

Vivanco has been expanding its service offering for specialist retailers successfully, covering almost the entire value chain along the retail process. From development and manufacturing of new products over logistics, marketing and sales, all the way to product line support at the P.O.S. (Point of Sale). With the company's sense for trends, its well-founded knowledge of production markets, extensive marketing know-how and targeted retailer support, Vivanco is the ideal system service provider and partner for specialist retailers for innovative, market-driven products, P.O.S. service and ideas.
This combination allows retailers to tap their full sales potential.

Vivanco, for maximum effectiveness and competitiveness

- 3 size classes to choose from
- Choice of 4 function types in each size class
- Fast and easy product navigation in store
- Solid, TÜV-approved product quality

The features of our core range!

A new material

- Titan is the first manufacturer to present wall mounts almost entirely made of hardened polyamide.
- This material is much LIGHTER than metal and features an extraordinary strength, rigidity and durability.
- Due to their very low weight, these wall mounts are much easier to fasten to the wall.

Click Lock system

- After installing the TV set onto the wall mount, you usually secure it to the plate with locking screws.
- This additional step is time-consuming and requires appropriate tools.
- Pulling our new Click Lock cord AUDIBLY opens or closes the lock. You do not need any tools.
- You do NOT need to hold the Click Lock cord when hooking in the TV set.

Tilt Lock function

- Most wall-mounts with tilt function feature a device for locking or unlocking this function.
- In most cases, you have to loosen or tighten several locking screws behind the screen.
- Frequent use of this tilt function can make loosening or tightening the locking screws very cumbersome.
- Our new Click Lock function significantly improves this step (often not taken into account). Pulling the Click Lock cord opens or closes the lock.

Horizontal level correction

- When installing wall mounts, you often experience slight inaccuracies when drilling holes into the wall.
- Even the slightest of deviations can result in significant horizontal alignment errors, in particular with large screens.
- Our new level correction feature compensates for such inaccuracies and ensures the TV set can be aligned perfectly horizontally.

Ultra Slim

Only 4,5mm distance to the wall

ULTRA FLAT

LCD TV sets become flatter and flatter.
The new generation of LED TV sets are even flatter still. Today, some models are already less than 30mm thick.
To match these very flat LED screens, Vivanco developed the "Ultra Slim" series of products.

With the fixed version, the distance between wall and TV set is only 4.5mm. As far as we know, no other wall mount on the market offers a thinner installation distance.

4in1 universal remote control
for TV, SAT/DVB, DVD/Blu Ray and HomeTheatre

- High-quality 4in1 remote control
- Sits comfortably in the hand due to its unique ergonomic design
- Sophisticated design and high functionality due to recessed keys
- Agreeable white backlight
- Backlit display for device indication
- For all popular major brand devices
- Preprogrammed for TVs, beamers, set-top boxes, digital and analogue SAT receivers, DVB-T, DVD, Blu Ray DVD, video recorders and home theatre sets / Audio amplifier
- With teach-in function
- 5 Macros: e.g. All devices On/Off at the touch of a single button
- Controls all frequently used functions, also EPG guide, 16:9, menus, video text, fast text, language, timer, surround, etc.
- Automatic code search function
- Batteries: 3x AAA, not supplied

Ergonomic design

Unique ergonomic design
Sits optimally in the hand and lets you press all keys with one hand. Easy access to major functions.

Recessed keys
Recessed keys have long since been a success with mobile phones but are a novelty with remote controls. They optimally combine high functionality and suitability for daily use with sophisticated design.

Agreeable white backlight
Clearly visible in the dark but very discreet and agreeable.

Backlit display for device indication
Always indicates the device being controlled.

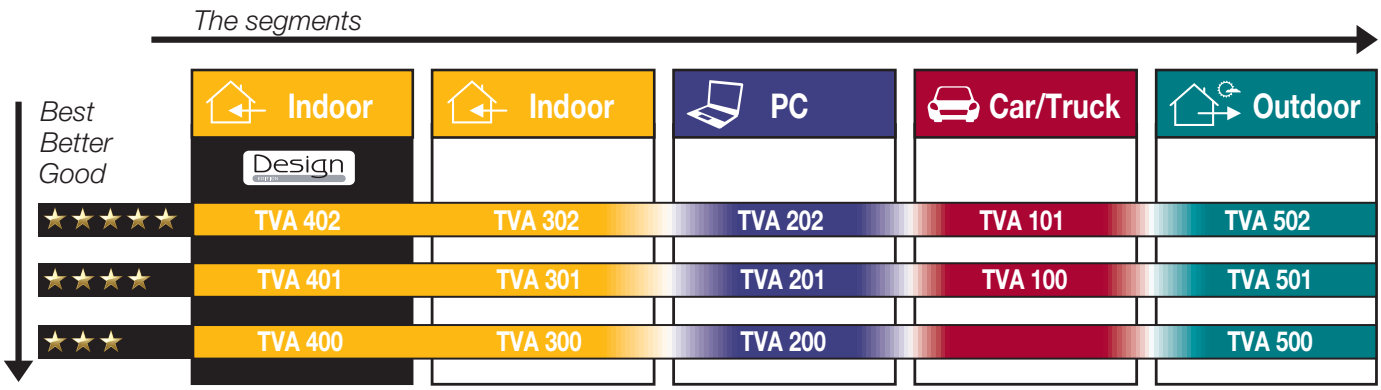
AERIALS

Innovative concept for DVB-T antennas

Vivanco presents a new innovative concept for DVB-T antennas.
Apart from performance and design, the main focus is on the actual real-life usage.

The new guidance system facilitates the search for the antenna which best suits a consumer's requirements, allowing anybody to find the product most suitable for them easily and quickly. The answer to the question: which is the right antenna?



Good / Better / Best

Vivanco antennas are categorised in the three ranges Good, Better, and Best. This categorisation also refers to the reception quality. The farther away from the transmission tower, the better the quality of the antenna should be.

Best
– Very high reception quality, top amplification, premium accessories kit
→ optimal for operation in areas with poor reception

Better
– High reception quality, high amplification, basic accessories kit
→ for operation in areas with average to good reception

Good
– Good reception quality with good amplification characteristics
→ Optimal for areas with good reception

The segments

The product range is divided into four basic application ranges: Indoor, PC, Car/Truck and Outdoor. Vivanco's DVB-T antennas were specially optimised for these areas of application.

Indoor
– For indoor use such as in rooms or flats

PC
– Specially optimised for use with PCs and for mobile application with notebooks

Car/Truck
– For use on a 12 V onboard network of cars, trucks or caravans

Outdoor
– For outdoor use, for example for installation on house walls or on caravans

Indoor

Design EDITION | Indoor

Design down to the finest details!

The Vivanco Design line combines aesthetics and function in extraordinary products. The subtle understatement, the clear lines and the above-average performance make these products something special..

1080p+ FULL HDTV DVB T DVB T2 DAB DIGITAL Useable for caravan

Outdoor antenna

- For analogue and digital TV reception, DVB-T and DVB-T2, DAB radio
- The most innovating 48dB amplification technology for an optimal amplification of terrestrial TV signals
- Auto-gain control: automatic setting of the best amplification factor
- Active low-noise technology for extremely clear reception
- Multi-direction 360° system increases reception capacities
- Highest level of flexibility: positioning, wall or mast assembly possible
- Perfectly suitable for external applications and for caravans and mobile homes
- Current supply by power supply or DVB-T receiver
- Suitable for all weather conditions
- Included cable for antenna of 8.5m

aircoustic BY VIVANCO

AIRCOUSTIC

A brand introduces itself

The aircoustic brand symbolises an entirely new, customer-oriented approach to sell headphones. The concept based on actual consumer behaviour, provides a better overview for the customer at the shelf and actively promotes the decision to buy. Innovative, interesting and unique hero products complete the purchasing experience.

Segmentation by use

Our concept is based on the purchasing behaviour. Surveys have established that customers base their decision to buy on the intended use. Headphones, for example, are required for travelling or are worn during jogging. For this reason, we segment the aircoustic product line by use rather than by type or design. This lets the customer find the right headphones for his intended use very quickly.

Decision guidance and fast orientation

The concept for the aircoustic product line indicates the relevant applications and so actively supports the customer in his decision to buy. The colour guidance system leads him to the desired product segments on the shelf where he can choose the right product from several segments such as sports, travelling or fashion.

Interesting innovations

For many years, Vivanco has been one of the leading specialists for headphones. This also holds true for the new aircoustic product line featuring unique items no other vendor can boast of. Let us surprise you and also draw your customers' attention.

Comprehensive solution

aircoustic is the comprehensive solution for headphones. We ensure a uniform and attractive shelf presentation minimising the expenses for customer counselling. At the same time, we address all customer groups much more directly. The individual product line segments are also ideally suited for additional placement or seasonal promotion such as during the travelling season or for sports events.

aircoustic range

1. Premium

The Premium segment contains the highlights and extraordinary innovations of the aircoustic product range. Due to its Balanced Armature driver, **Studio Monitors** offers pros and music lovers a precise sound rich of details. Entirely unaltered and clear, it renders the signal almost perfectly. **The X-treme Buds** were designed for ultimate sound experience. Milled from solid aluminium and equipped with a 9mm high-performance driver, the earphone convinces with an extraordinary powerful sound. When designing the **Wooden In Ear Speakers**, we used a material that has been used in speaker boxes for a long time: wood. The handcrafted in ear speakers convince with an individual sound that differs with the wood type used. Variation is also the motto for the **Metal Profile Earphones.** These earphones are optimised for a specific style of music each: rock, pop and classical. Listening to your favourite music is even more fun now.

2. Main product range
(Fashion, Mobile, Travel, Sport, Sound for all)

The aircoustic range of product comprises 5 segments focusing on the specific application. The TRAVEL segment, for example, contains headphones developed for travelling or your daily way to work that also come with an appropriate scope of delivery. The colour coding helps the customer to find the right headphone fast and without problems; supporting POS material is also available.

3. Mobile

More and more often, you find mobile phone and mp3 player functions in a single unit, increasing the demands on headsets. To face this challenge, we added the MOBILE segment to the aircoustic range of products this year. It contains headsets with integrated microphone and control functions offering a very good sound and also convincing due to their design.

4. Ear Buddy

Bold, fresh and completely in trend. The Ear Buddy series gives teenagers a crazy outfit to match the latest music. First-time MP3 listeners have also been catered for. To protect the delicate ears of children, both Ear Shield models actively limit the output power to 85 dB (ALC technology = active level control).

5. HiFi und TV Kopfhörer

As a new segment, we offer top class HiFi and TV headphones under the aircoustic label from 2011 onwards. The packaging concept conveys a high-quality and customer-oriented notion. The key features are clearly visible at a glance. When selecting the headphones, we attached great importance to quality and optimal price/performance ratio.

Fashion

Magnetic Buds design earphones

The Magnetic Buds are totally new, cutting edge design: The sleek style, the special metallic paint and the new type of ear pads are fantastic but also the sound is outstanding! The extra deep bass and biting treble make the acoustic characteristics as extravagant as the visual appearance. These earphones deliver and want to be seen.

Another innovation is the magnetic rear side: This technology makes it possible to wear the earphones comfortably around the neck, like a necklace. Furthermore the flat anti tangle cable avoids inconvenient knots and cable mess.

- Flat cable with anti tangle effect
- Colour: brown/crème
- Including silicon ear pads (S/M/L)

- Frequency: 18Hz – 23.000Hz
- Sensitivity: 102dB
- Impedance: 16Ohm
- Cord length: 1.8m

* What is an anti-tangle cable?
Due to its special surface structure and design, this cable prevents annoying cable clutter and twisting.

Mobile

White Sphere headset
for iPod, iPhone and iPad

The White Sphere headset has an integrated microphone and controls the most important functions like call, play/pause, skip and volume.

- Phone function: The remote allows to answer calls, to hang up and control the volume.
- Audio replay: Skip forward/back, play/pause, volume
- Sound: surprisingly full bass and natural sound
- Design: Through the translucent glass of the rear part you can see the inside of the earphones.
- Sound Isolating design: The earphones block the most background noise for a undisturbed listening experience.
- Apple certified: “Made for iPod, iPhone and iPad”

Compatibility:
- Audio: All Apple devices
- Mic and remote: iPod Nano4 and later, iPod Classic 120GB/160GB, iPod Touch 2nd Gen. and later iPhone 3GS and 4, iPad
- Remote: iPod Shuffle 3 and later

- Frequency: 12 – 23.000kHz
- Sensitivity: 110dB
- Impedance: 16Ohm
- Cord length: 1,2m
- Plug: 3.5mm stereo golden

Ear Shield children's headphones

The first aircoustic headphone with active volume limitation! To protect the delicate ears of children, both Ear Shield models actively limit the output power to 85 dB (ALC technology = active level control). The limitation is independent of the player device and cannot be bypassed. For this reason, the headphones are safe in the hands of children.
We also attached great importance to wearing comfort. Soft ear pads and the flexibly adjustable head band make the headphones comfortable to wear.

- Volume limitation as hearing protection
- For children from 6 years
- Child-friendly design

- Frequency: 18 – 22.000 Hz
- Sensitivity: 102 dB
- Active Level Control from 85dB
- Impedance: 32 Ohm
- Cord length: 1.2m
- Plug: 3.5mm

Ultralight design inearphones with 5.5mm micro driver

Small, lightweight and powerful – the iSR 200 have an ultra lightweight 5.5mm micro driver which has allowed us to reduce the total earphone weight to only 11g! The driver has been developed especially for an outstanding performance with the minimum of space. This affords a high wearing comfort without loosing any sound quality.
The combination of premium driver and modern design means that the iSR 200 is the perfect addition for any iPod, iPhone or PDA.

- Weight only 11g
- Premium micro driver 5.5mm
- Excellent sound quality

- Frequency: 10 – 23.000Hz
- Sensitivity: 102dB
- Impedance: 16Ohm
- Cord length: 1.2m
- Plug: 3.5mm, golden
- Incl. Silicon ear cushions (S/M/L)

Metal jacket design - ultralight design inearphones

With the iSR 110 models, the mp3 accessories range is complete with four precious looking earphones. The housings are made of high grade aluminium and are both lightweight and solid at the same time. As well as the Pitch black version, the iSR110 is also available in three on trend colours as well: Mocha brown, Sweet violet and Burnt orange. The matt finished paint, the high grade materials and the perfect manufacture provide a true quality appearance. And the sound inspires as well: The complete acoustic spectrum is reproduced in a totally clear and balanced way. Prolonged listening with the iSR110 gives incredible pleasure. The crisp bass, clear highs and clean midrange meet all needs.
Due to the lightweight housing the wearing comfort is high and the silicone ear pads in three different sizes allow the fit to be optimised individually.

- High quality aluminium housing
- Excellent sound quality
- 4 trendy colours

- Frequency: 18Hz – 22.000Hz
- Sensitivity: 99dB
- Impedance: 16Ohm
- Cord length: 1.2m
- Plug: 3.5mm - golden

Camera bag "VN"

High quality nylon camera bag.
The small zip pocket at the front provides space for extra memory cards.

- Padded inner compartment
- Memory card pocket
- Removable shoulder strap

Available in two sizes:

Size I
- Weight: 45g
- Inner dimension: 90 x 60 x 20mm
- Outer dimension: 103 x 72 x 35mm

Size II
- Weight: 55g
- Belt loop
- Inner dimension: 100 x 70 x 30mm
- Outer dimension: 123 x 72 x 45mm

Basic Black line

Camcorder/Camera bag

Robust bag for all occasions.
Tasteful styling and high-quality workmanship are the trademark features of this line. Robust material and stable upholstery provide the best possible protection for the camera and accessories and make the basic black models an indispensible companion in all situations.

- Material: nylon
- Water-resistant top material in black with blue piping
- The main compartment is closed with a practical double zipper
- The cover net compartment, front compartment with organisational partitioning, front and side net pockets provide space for many accessories
- High-grade upholstery
- Light-coloured flannel inner lining to help find accessories inside the bag
- Adjustable interior partitioning
- Removable shoulder strap and belt loop for different carrying options
- Cleanable bottom

Available in four sizes:

Size I
- Inner dimension: approx. 100 x 140 x 80mm

Size II
- Inner dimension: approx. 130 x 120 x 60mm

Size III
- Inner dimension: approx. 170 x 120 x 90mm

Size IV / DSLR* bag, colt
- Inner dimension: approx. 170 x 190 x 125mm

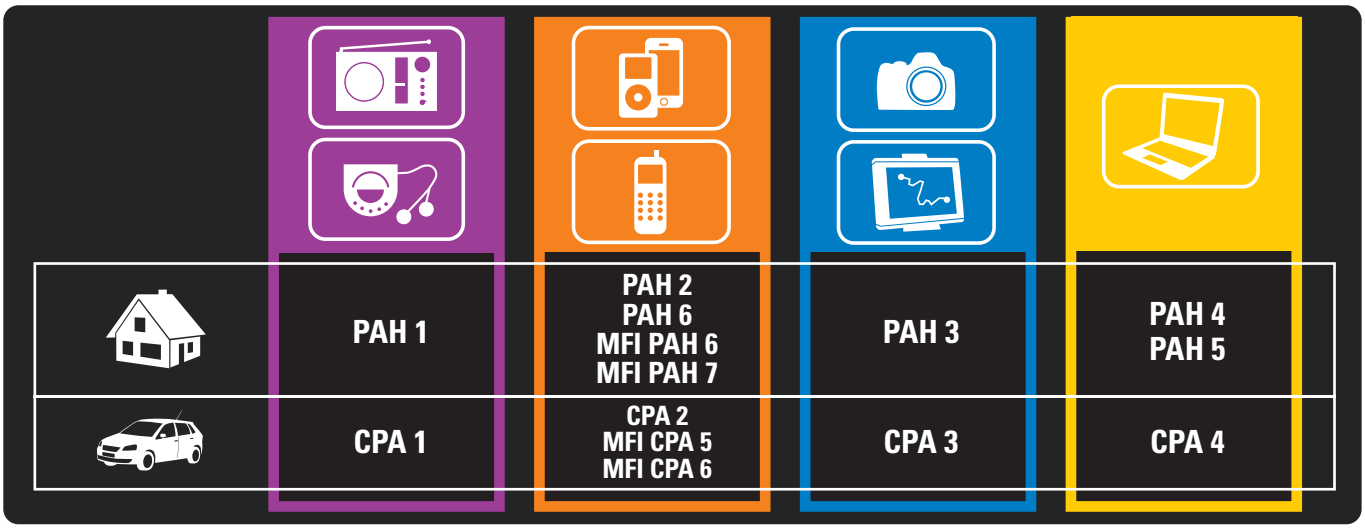
The customer is king

Power units are everyday items, but hardly anyone knows the technical specifications of these commonplace products. Anyone who wants to replace a lost or defective power unit is faced with a difficult choice.
The dealers' shelves are full of countless models with a multitude of different plugs.
The new Vivanco power unit range, therefore follows a completely new logic, which starts with the APPLICATION of the product.
The range is divided into 4 DEVICE CLASSES:

- Small electronic devices: portable audio devices such as radios, discman/walkman, active loudspeakers as well as pocket calculators, Babyfones, kitchen scales
- iPad, iPhone & iPod / smartphones / mobil phones / MP3 player
- Cameras / portable navigation devices
- Portable computers: laptops, netbooks

In addition, the power units are classified according to WHERE THEY ARE USED: at home, in the car

With the aid of this simple classification, it is easy to find the correct power unit on the shelf:



For the sake of the environment

The new Vivanco power units comply with the latest EU standards and directives (Eco-Design Directive for EuP = Energy using Products). For power units, this meansa significant reduction in standby consumption to below 0.3 Watt and a considerable increase in efficiency. For example, while conventinal power units convert 50% of the energy into waste heat, the energy losses for the new generation of products are only about 20%.

CO_2 clever

Packaging

The newly developed packaging is a great help for finding the right product.
The colour coding system and the symbols used enable rapid orientation on the shelf and facilitate the customer's decision to buy.

For electronic appliances

* Compliant to European Eco Design Directive 2005/32/EC Regulation No.278/2009. Many marked products exceed the directive's requirements considerably. The upto date Vivanco power adapters consume in stand-by mode frequently 1/5th of energy only, than their predecessors and hence protect the environment and your vallet.

Vivanco special models

Car power DC/AC inverter with USB charging function

- Fits into bottle holder
- Charging function for charging of USB chargeable devices
- E Mark: CE, (E8) 10R-02 07191

- Input: 12–13.8V⎓ / max. 13A
- Max. output power/current: 300W (briefly) / 150W
- Output voltage: 220–240V / 50Hz, modified sine-wave
- Output socket: schuko
- USB: 5V⎓ (USB), max. 500mA
- Output socket: USB socket type A

CPC 150

EDP-

ctn qty

not available anymore!

Car socket multiplier with USB charging function

- Input: 12–13.8V⎓
- Max. output power/current: 12W / 1000mA
- Output sockets: 3x 12V⎓ / max. 1000mA
  also for cigarette lighter
- USB: 5V⎓ (USB), max. 500mA → 1000mA
- Output socket: USB socket type A

CPM 03 USB

EDP-No. 27839

ctn qty. 5

Inklusive USB-Anschluss

Für Zigarettenanzünder

Car socket multiplier

- Doubles power connector sockets in vehicle
- Input plug: cigarette lighter
- E Mark: CE, (E4) 10R-021121

- Input: 12–13.8V⎓
- Max. output power/current: 42W / 3500mA
- Output socket: 2x 12V⎓

CPM 02

EDP-No. 27840

ctn qty. 5

This products have been tested by TÜV Rheinland on product safety.
The GS mark (tested safetey) indicates that the product was safety tested by an independent test lab.

Vivanco special models

PA 600
EDP-No. 27822
ctn qty. 10

Universal AC/DC power adapter

- Compact and light weighing
- For worldwide use
- GS, CE

- Input: 100–240V; 60/50Hz; max. 0.16A
- Max. output power/current: 7.2W / 600mA max.
- Stand-by power: < 0.3W*
- Efficiency: max. 70%*
- Output voltages:
  3.0 / 4.5 / 5.0 / 6.0 / 7.5 / 9.0 / 12V
- Output plugs: 3.5mm / 5.0 x 2.1mm / 5.5 x 2.5mm /
  3.5 x 1.35mm / 4.0 x 1.7mm / 2.35 x 0.75mm

CA 800
EDP-No. 27821
ctn qty. 10

Universal DC/DC car power adapter

- Compact and light weighing
- For worldwide use
- E Mark: CE, (E4) 10R-021419

- Input: 12–13.8V⎓
- Max. output power/current: 9.6W / 800mA
- Output voltages:
  1.5/ 3.0 / 4.5 / 6.0 / 7.5 / 9.0 / 12V
- Output plugs: 3.5mm / 5.0 x 2.1mm / 5.5 x 2.5mm /
  3.5 x 1.35mm / 4.0 x 1.7mm / 2.35 x 0.75mm

PA 1000
EDP-No. 27823
ctn qty. 10

Universal USB charging adapter

- For all USB chargeable MP 3 players, also iPhone/iPod
- For charging of most USB chargeable devices,
  e.g. satellit navigation systems
- GS, CE

- Input: 100–240V; 60/50Hz; max. 0.13A
- Max. output power/current: 5W / 1000mA
- Stand-by power: < 0.3W*
- Efficiency: max. 85%*
- Output voltages: 5V (+- 5% USB standard compliant)
- Output socket: USB socket type A

CA 1000
EDP-No. 27824
ctn qty. 10

Universal USB car charging adapter

- For all USB chargeable MP 3 players, also iPhone/iPod
- For charging of most USB chargeable devices,
  e.g. satellit navigation systems
- E Mark: CE, (E4) 10R-021618

- Input: 12–13.8V⎓
- Max. output power/current: 5W / 540mA max.
- Output voltages: 5V (+- 5% USB standard compliant)
- Output socket: USB socket type A

Socket extensions, standard

Triple socket extension lead

- 3x Schuko
- Core thickness 1.5mm²
- Sockets angled at 45°
- Secure contacts
- Virtually unbreakable housing

E3 W15
EDP-No. 28254
ctn qty. 40 / white / 1.4m

E3 S15
EDP-No. 28255
ctn qty. 40 / black / 1.4m

Triple socket extension lead with switch

- 3x Schuko with switch
- Core thickness 1.5mm²
- Sockets angled at 45°
- Secure contacts
- Virtually unbreakable housing

ES3 W15
EDP-No. 28256
ctn qty. 38 / white / 1.4m

ES3 S15
EDP-No. 28257
ctn qty. 38 / black / 1.4m

Six socket extension lead

- 6x Schuko
- Core thickness 1.5mm²
- Sockets angled at 45°
- Secure contacts
- Virtually unbreakable housing

E6 W15
EDP-No. 28258
ctn qty. 20 / white / 1.4m

E6 S15
EDP-No. 28259
ctn qty. 20 / black / 1.4m

Six socket extension lead with switch

- 6x Schuko with switch
- Core thickness 1.5mm²
- Sockets angled at 45°
- Secure contacts
- Virtually unbreakable housing

ES6 W15
EDP-No. 28260
ctn qty. 20 / white / 1.4m

ES6 S15
EDP-No. 28261

Adapters

A2 W
EDP-No. 7295
ctn qty. 215 / white

2-way Euro adapter

- Schuko plug to 2 x Euro socket

A3 W
EDP-No. 17462
ctn qty. 100 / white

Schuko/Euro adapter

- Schuko plug to 1x Schuko socket and 2x Euro socket

AS 1W
EDP-No. 22396
ctn qty. 100 / white

Schuko adapter with switch

- Schuko plug to Schuko socket with switch
- Children security

AS 3W
EDP-No. 27369
ctn qty. 100 / white

Schuko/Euro adapter with switch

- Schuko plug to 1x Schuko socket and 2x Euro socket
- Children security

ÜSP 1W
EDP-No. 21950
ctn qty. 110 / white

Overvoltage protection adapter, 2x 4.500A

- For protecting your electrical devices from overvoltage, e.g. from lightning
- Including function LEDs
- Children security
- Max. connection power: 16A / 3500W
- Leakage current 2x 4500 A

Socket extensions, basic

Triple socket extension lead

- 3x Schuko
- Core thickness 1.5mm²
- Sockets angled at 45°
- Virtually unbreakable housing
- Children security

EBL 3W
EDP-No. 27013

ctn qty. 40 / white / 1.4m

Triple socket extension lead with switch

- 3x Schuko with switch
- Core thickness 1.5mm²
- Sockets angled at 45°
- Virtually unbreakable housing
- Children security

EBLS 3W
EDP-No. 27014

ctn qty. 38 / white / 1.4m

EBLS 3S
EDP-No. 27015

ctn qty. 38 / black / 1.4m

Five socket extension lead with switch

- 5x Schuko with switch
- Core thickness 1.5mm²
- Sockets angled at 45°
- Virtually unbreakable housing
- Children security

EBLS 5W
EDP-No. 27016

ctn qty. 34 / white / 1.4m

EBLS 5S
EDP-No. 27017

ctn qty. 34 / black / 1.4m

Six socket extension lead with switch

- 6x Schuko with switch
- Core thickness 1.5mm²
- Sockets angled at 45°
- Virtually unbreakable housing
- Children security

EBLS 6W
EDP-No. 27018

ctn qty. 20 / white / 1.4m

EBLS 6S
EDP-No. 27019

EKS5 W3
EDP-No. 28705
ctn qty. 20 / white / 3.0m

EKS5 W5
EDP-No. 29968
ctn qty. 15 / white / 5.0m

Five socket extension lead with switch

- 5x Schuko with switch
- Core thickness 1.5mm²
- Sockets angled at 45°
- Virtually unbreakable housing
- Children security
- Incl. wall mount holder

Socket extensions, comfort

Seven socket extension lead with switch

- 5x Schuko + 2x Euro with switch
- Core thickness 1.5mm²
- Sockets angled at 45°
- Virtually unbreakable housing
- Children security
- Incl. wall mount holder

EKS5/2 W
EDP-No. 22362

ctn qty. 25 / white / 1.4m

EKS5/2 S
EDP-No. 22363

ctn qty. 25 / black / 1.4m

Ten socket extension lead with switch

- 6x Schuko + 4x Euro with switch
- Core thickness 1.5mm²
- Sockets angled at 45°
- Virtually unbreakable housing
- Children security
- Incl. wall mount holder

EKS10 W
EDP-No. 22367

ctn qty. 16 / white / 1.4m

Triple socket extension lead with switch

- 3x Schuko with switch
- Cable opposed to the switch
- Core thickness 1.5mm²
- Sockets angled at 45°
- Virtually unbreakable housing
- Children security

new EKS3 W180
EDP-No. 28704

ctn qty. 20 / white / 1.4m

Six socket extension lead with switch

- 6x Schuko with switch
- Cable opposed to the switch
- Core thickness 1.5mm²
- Sockets angled at 45°
- Virtually unbreakable housing
- Children security

new EKS6 W180
EDP-No. 28703

ctn qty. 20 / white / 1.4m

Extension cables

EV3W
EDP-No. 22129
ctn qty. 50 / white / 3.0m

ctn qty. 40 / white / 5.0m

EV5S
EDP-No. 22132
ctn qty. 40 / black / 5.0m

Euro extension lead

- Euro plug to Euro socket
- Core thickness 0.75mm²

SKV 2 W
EDP-No. 7278
ctn qty. 30 / white / 2.0m

SKV 3 W
EDP-No. 7280
ctn qty. 28 / white / 3.0m

SKV 5 W
EDP-No. 7282
ctn qty. 20 / white / 5.0m

SKV 10 W
EDP-No. 7284
ctn qty. 15 / white / 10.0m

Schuko extension lead

- Schuko plug to Schuko socket
- Core thickness 1.5mm²

Professional line

Four socket extension lead
with switch and surge protection

- 4x Schuko
- Surge protection up to 19.500A
- Children security
- 1.40m lead, 1.5mm² core thickness
- Incl. wall mount holder
- 16A / 3.500W / 50Hz

new EP 4S
EDP-No. 26555
ctn qty. 30 / black / 1.4m

Six socket extension lead
with switch and surge protection

- 6x Schuko
- Surge protection up to 19.500A
- Children security
- 1.40m lead, 1.5mm² core thickness
- Incl. wall mount holder
- 16A / 3.500W / 50Hz

new EP 6S
EDP-No. 26556
ctn qty. 20 / black / 1.4m

Four socket extension lead ALU
with switch and surge protection

- 4x Schuko
- Surge protection up to 19.500A
- Overload protection
- Children security
- 2m lead, 1.5mm² core thickness
- Incl. wall mount holder
- 16A / 3.500W / 50Hz

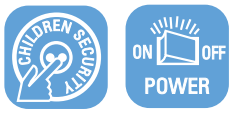
new EP 4S ALU
EDP-No. 26558
ctn qty. 20 / ALU / 2.0m

new EP 6S ALU
EDP-No. 26559
ctn qty. 20 / ALU / 2.0m

Six socket extension lead ALU with switch and surge protection

- 6x Schuko
- Surge protection up to 19.500A
- Overload protection
- Children security
- 2m lead, 1.5mm² core thickness
- Incl. wall mount holder
- 16A / 3.500W / 50Hz

new EP 8S ALU
EDP-No. 26560
ctn qty. 12 / ALU / 2.0m



Eight socket extension lead ALU with switch and surge protection

- 8x Schuko
- Surge protection up to 19.500A
- Overload protection
- Children security
- 2m lead, 1.5mm² core thickness
- Incl. wall mount holder
- 16A / 3.500W / 50Hz

Professional line

Eight socket extension lead ALU with switch and surge protection

- 8x Schuko with 2 switches
- 2x Four socket extension lead in one housing
- High-grade aluminum housing
- Surge protection up to 30.000 A, also for RJ11 (phone), RJ45 (network) and coaxial (TV / RD / SAT)
- Ground protection control
- Overload protection with reset function
- 2m lead
- Max. connection power: 3500W / 16A
- Children security
- Core thickness 1.5mm²

new EPLS 8ALU
EDP-No. 22377
ctn qty. 10 / ALU / 2.0m

Ten socket Master-Slave extension lead ALU, with switch and surge protection

- 8x Schuko + 2x Euro with switch
- 2x socket extension lead in one housing:
- 6x Schuko für Master-Slave-Betrieb, 2x Schuko + 2x Euro for normal operation
- Switchable Master-Slave function
- High-grade aluminum housing
- Surge protection up to 30.000 A, also for RJ11 (phone), RJ45 (network) and coaxial (TV / RD / SAT)
- Ground protection control
- Overload protection with reset function
- 2m lead
- Max. connection power: 3500W / 16A
- Children security
- Core thickness 1.5mm²

new EPLS 10ALU MS
EDP-No. 22378
ctn qty. 10 / ALU / 2.0m

Triple socket table extension lead, ALU with switch

- 3x Schuko with switch
- Children security
- High-grade aluminum housing
- 2m lead, 1.5mm² core thickness
- 16A / 3.500W / 50Hz

new EP 3DT ALU
EDP-No. 28691
ctn qty. 30 / ALU / 2.0m

Travel plugs

RS 4 W
EDP-No. 7292
ctn qty. 40 / white

Travel plug set

Suitable for:
- Southern Europe
- America
- Overseas
- UK

RS 7W
EDP-No. 22397
ctn qty. 50 / black

Travel plug set, Schuko

- Incl. 7 adapters for more than 150 countries throughout the world
- Children security
- Including transport bag
- Suitable for Schuko and Euro plugs

The travel plug is not a voltage and frequency converter!

new TA AUS/D
EDP-No. 28692
ctn qty. 10 / black

Travel plug for international travel

- Schuko plug <-> Australia / China socket

new TA GB/D
EDP-No. 28693
ctn qty. 10 / black

Travel plug GB/D

- Schuko plug <-> GB socket

new TA D/GB
EDP-No. 28699
ctn qty. 10 / black

Travel plug D/GB

- Schuko socket <-> GB plug
- Incl. 13A securing

Travel plugs

Travel plug CH/D

- Schuko plug <-> CH socket

not available anymore!

H/D
95
ctn qty. 10 / black

Travel plug D/CH

- Schuko socket <-> CH plug

new TA D/CH
EDP-No. 28696
ctn qty. 10 / black

Travel plug D/USA

- Schuko socket <-> USA plug, 3 pin

new TA D/USA
EDP-No. 28694
ctn qty. 10 / black

Travel plug USA/D

- Schuko plug <-> USA socket, 3 pin

new TA USA/D
EDP-No. 28698
ctn qty. 10 / black

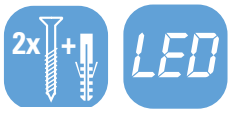
Travel plug I/D

- Schuko plug <-> Italy socket

new TA I/D
EDP-No. 28700
ctn qty. 10 / black

Smoke detector

new SD 2
EDP-No. 30316
ctn qty. 60 / white



Smoke detector

- Tested according to fire protection ordinance EN14604
- Incl. 9V battery
- With function LED and audible signal (85dB)
- With self test function
- Battery warning system
- Instruction manual

RF power sockets

FSS 31000W
EDP-No. 26551
ctn qty. 6 / white

3way RF power socket set

- Set comprises 1 wireless remote control and 3 wireless power outlet receivers
- Switching capacity: max. 1000W per receiver
- Coverage: up to 25m
- Power consumption: <1W
- Incl. battery
- Instruction manual

FSS 33600W
EDP-No. 26552
ctn qty. 6

3way RF power socket set, 3.600 Watt

- Set comprises 1 wireless remote control and 3 wireless power outlet receivers
- Switching capacity: max. 3600W per receiver
- Coverage: up to 25m
- Power consumption <1W
- Incl. battery
- Instruction manual

Timer

Mechanical timer

- A maximum of 96 settings per day
- Shortest interval: 15 minutes
- Integrated children security
- Sliding on and off switch
- Instruction manual
- Voltage: 230 – 240V~ / 50Hz
- Max. capacity: 16A / 3600W
- Temperature: 0° to +55°C

T24
EDP-No. 1414

ctn qty. 6 / white

Digital day and week timer

- Max. 128 settings per week
- Min. time setting: 1 min.
- Random function
- LCD display with time control
- Easy to use with 8 buttons
- Children security
- Instruction manual

DT 1
EDP-No. 1416

ctn qty. 6 / white

Mechanical timer

- Splash water protection housing according IP44 standard
- A maximum of 96 settings per day
- Shortest interval: 15 minutes
- Integrated children security
- Instruction manual
- Voltage: 220–240V~ / 50Hz
